10am – 4pm

ASC 2

First Year Career Strategies – Graduation Career Preparation – Resume Helps

TARGET: Create oversized, “billboard” displays on large wall boards in school corridor.

CHALLENGE: Wall boards measure 69.5 x 45.5 inches, and 88 inches x 33 inches. No cost-effective way to produce/print, as one piece, at high enough resolution, in order to retain sharpness and clarity.

SOLUTION: Produce murals as mosaics, consisting of 8 ½ x 11 inch, letter-sized pages.

PROCESS: Create a template using available medium (Microsoft Word®), use screen capture and photo editing tools to create mosaic pieces, print, assemble and post.
