Parents
Plus

Introducing PARENTS *Plus!* A new church outreach support ministry to single parents. This group specializes in seeing to the needs of single moms and dads, and also sponsors counseling and activities for these parents.

Each of these gray-scale design concept logos are meant to reflect the nurturing partnership participating parents may expect from these groups, as an extension of the church body, at large.

The first is a simple reversal of the letter “P” together, with one head, indicating unity. The next, an arrow in cycle, its path in the shape of a heart, is meant to denote nurturing. Finally, the abstract image of a parent, set against its reflection, is meant to give the impression of committed partnership of each member to the other.
